Dubai: The Dubai e-Government Resources Planning and Management System proceeded with the immediate activation of the law issued by His Highness Shaikh Mohammad Bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai last April, concerning three categories of employees in the Dubai judicial authority - judges, public prosecutors and judicial inspectors at the Ruler's Court. The decree took effect starting with the salary of May.

The e-Government sent out the decree for taking effect on May 13, 2009, the higher administrative follow up and continuous work of the six manned joint team, tasked with activating the law, in cooperation with the e-Government System Development Administration, the infrastructure administration and the customer service administration, was able to offer the technical solutions required for the application of the law within two weeks.

The Government Resources Planning Department System's team supervises the functioning, administrative and financial processes. Dubai's government departments use the Government Resources Planning System, provided by the e-Government, to build a pioneer model for other departments to follow.
