Sharjah: Owners of old taxis in Sharjah have received their yearly compensation totalling Dh5 million.

According to a decision by Sharjah Transport board, the 5,000 owners received Dh1,000 each.

Abdullah Al Zari, Director General of Sharjah Transport, said the yearly compensation is paid in addition to the monthly compensation, in line with regulations affecting the owners of old taxis.

The yearly compensation included all the owners who completed their monthly compensation applications, he said, adding that the amount is in line with Sharjah Transport's keenness to help improve the living conditions of Emiratis.

Al Zari urged owners of old taxis all over the emirate to approach the company to deliver their number plates and complete their applications so that they would benefit from the monthly compensation in line with the law.
